BUILDING PERMIT FEES

NEW CONSTRUCTION: Building valuation for new residential construction and new commercial construction will be determined using the International Code Council's *Building Valuation Data Table*. The valuation table is published every six-months to provide an up-to-date average construction cost per square foot based on occupancy and construction type. A copy of the table is available from the Building Inspector or on the International Code Council's website at www.ICCSafe.org. After valuation is determined, the following table is used to calculate permit fees.

ALL OTHER CONSTRUCTION: Building valuation for anything other than new construction is determined by the reported projected cost. After valuation is determined, the following table is used to calculate permit fees.

Total Valuation	Fee

TOTAL FEES DUE: _____

This permit becomes null and void if authorized work or construction has not begun within six months, or if construction or work is suspended or abandoned for a period of six months, at any time, once work is started. I hereby certify that I have read and examined this document and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied whether specified herein or not. Granting a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
